Comprehensive Communications for Hotel Guests and Staff

Businesses in the hospitality sector can now improve their bottom line by upgrading their telephone systems to a cost-effective IP-PBX. Not only does the transition to an IP-PBX save on inter-company communications and improve efficiencies by integrating with the business' data network, the Complete Concierge solution leverages existing infrastructure (cabling and analog phone sets).

Hospitality Communications Features

- Integrated wake-up
- Integrated operator panel
- Front desk check-in and check-out
- Guest's name applied to room upon check-in
- Vacant status applied to room upon check-out
- Opening of phone lines at guest check-in
- Closing of phone lines at guest check-out
- Opening of guest voicemail box upon check-in
- Purging of voice messages upon check-out
- Message waiting indicator
- Built-in room status system
- **Built-in call accounting software package with programmable rate tables**

General Communications Features

- User-defined extensions
- Extension groups
